SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.97(d)

Dear Sir:

Pursuant to 37 CFR §1.97(d), Applicant hereby calls the Examiner's attention to the documents listed on the attached form, which documents may be material to the examination of this application. A copy of each document is enclosed herewith for the Examiner's consideration.

This Supplemental Information Disclosure Statement is being filed after the mailing of a Final Action, but before payment of the Issue Fee. The present application is presently on Appeal. Each item of information in this Supplemental Information

Disclosure Statement was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the Information Disclosure Statement. Enclosed is a check in the amount of \$180.00 for the fee due, as required by 37 CFR 1.17(p).

The citation of these documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of the documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

If it is determined that a further fee is required for this Supplemental Information Disclosure Statement, please charge the additional amount to Deposit Account No. 50/1039. (A duplicate

of Fee Transmittal Form PTO/SB/17 is included in this submission.)

Respectfully submitted,

Further, the listed references United States Patent Applications Serial No. 08/033,233 and 09/099,188 are not included because these references are cumulative of the enclosed United States Patent No. 5, 577,369.

This submission is not an admission that any enclosed reference anticipates, or that any reference or any combination of references renders obvious, any claim in the above-identified application. Nevertheless, the Examiner is requested to consider carefully the complete disclosures of the enclosed references in connection with the examination of the above-identified
